

BEJCA I NITRO KOLEKCJA TOP KOLOR DĄB

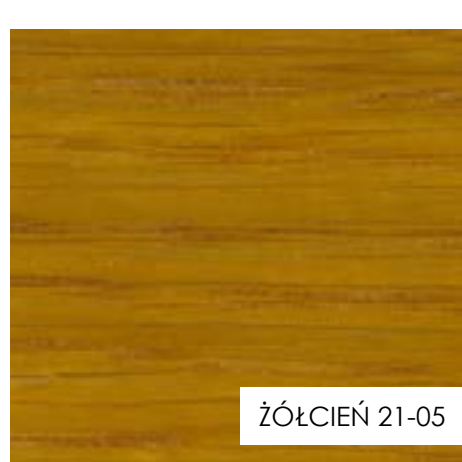

Bejca przeznaczona jest do barwienia drewna iglastego i liściastego, zwłaszcza do dębu, jesionu i sosny. Podkreśla i wzmacnia rysunek słoju drewna, dając efekt rustykalny.

Charakteryzuje się krótkim czasem schnięcia, bardzo dobrą rozlewnością i jednorodnością wybarwienia.

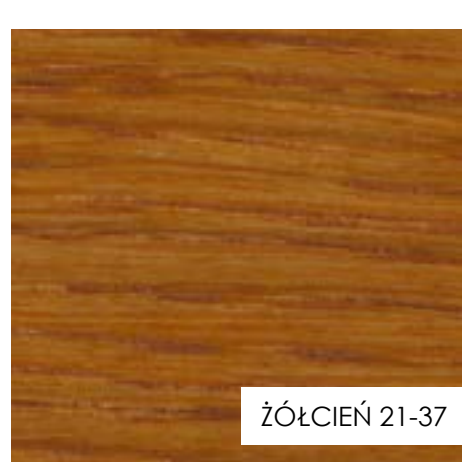

Bejca Nitro o indeksach BN-XXX posiada Certyfikat zgodności z normą PN-EN 71-3, co stanowi rekomendację jej stosowania do barwienia mebli oraz zabawek dla dzieci.
